

At Gloning Crane Components we offer a wide range of products to meet your material handling needs. Our range includes top of the range single girder hoists such as the innovative iROPE system, renowned for its efficiency and reliability. For more demanding applications, we also offer robust double girder hoists that meet the highest quality standards and ensure safe movement of loads from 250 kg to 250 t.

Our trolleys are also renowned for their durability and precision. They provide a solid foundation for your crane systems, enabling efficient and smooth load movement in a variety of working environments.

IF YOU WOULD LIKE TO FIND OUT MORE ABOUT OUR PRODUCT RANGE, WE WILL BE HAPPY TO SEND YOU FURTHER INFORMATION BY E-MAIL.

Our experienced team is available to assist you in selecting and customising the right products for your specific requirements. We strive to provide tailor-made solutions that not only meet but exceed your expectations.

With Gloning Crane Components you get not only high quality products, but also a reliable partner in optimising your material handling processes. Explore the possibilities and improve the efficiency and safety of your operations with our products.

OUR RANGE OF PRODUCTS AT A GLANCE

QUALITY AND VERSATILITY: OUR IMPRESSIVE PRODUCTS FOR ALL INDUSTRIES.

Gloning Crane Components is one of the leading manufacturers of crane components in Europe. In order to provide a first class service, we work with certified GCC partner companies throughout Europe. Our products meet the highest quality standards and have a wide range of applications in various industries and sectors.

With our newly established spare parts and training centre in Germany and close cooperation with our GCC partners, we offer a unique overall package that gives our customers the best. Hand in hand for a promising future.

Our products serve various industries and include the following components:

- Bridge cranes
- Gantry cranes
- Smooth-running systems
- Jib cranes
- Free standing systems
- Crane kits
- Standard hoists
- Standard endtrucks
- Winches

And user-defined crane components

LOADS FROM 250 KG TO 250 TONNES

iROPE SINGLE GIRDER HOIST

- Capacity up to 12.5 t
- Flexible and easy gauge adjustment
- Optimized C-dimension
- Improved rope guide attachment
- Extension of the lifting height options
- ESR for continuously variable lift drives

MODEL E SINGLE GIRDER HOIST

- Unique capacity range up to 25 t
- ABM Greiffenberger hoist motors
- Sturdy, fully welded trolley frame
- GCC quick release connectors
- Electromagnetic safety brake
- Wear-resistant steel rope guide

iROPE DOUBLE GIRDER HOIST

- Capacity up to 12.5 t
- Control voltage: 48 V
- Optimised C-dimension
- Improved rope guide attachment
- Extension of the lifting height options
- Improved FEM duty
- ESR for continuously variable lift drives

MODEL D DOUBLE GIRDER HOIST

- Capacity range up to 40 t (2-step hoisting speed)
- Capacity range up to 63 t (continuously variable hoisting speed)
- ABM Greiffenberger hoist motors
- Sturdy, fully welded trolley frame
- Electromagnetic safety brake

iROPE LOW DOUBLE GIRDER HOIST

- Capacity up to 12.5 t
- Control voltage: 48 V
- Optimised C-dimension
- Low headroom design
- Improved rope guide attachment
- Extension of the lifting height options

MODEL DL DOUBLE GIRDER HOIST

- Capacity range up to 40 t (2-step hoisting speed)
- Capacity range up to 63 t (continuously variable hoisting speed)
- ABM Greiffenberger hoist motors
- Low head room hoist
- Sturdy, fully welded trolley frame

MODEL Z DOUBLE GIRDER HOIST

- Capacity range up to 80 t
- Two ABM Greiffenberger hoist motors
- Sturdy, fully welded trolley frame
- GCC quick release connectors
- Electromagnetic safety brake
- Wear-resistant steel rope guide

MODEL FM FOOT MOUNTED HOIST

- Capacity range up to 25 t
- ABM Greiffenberger hoist motors
- Sturdy, fully welded hoist frame
- GCC quick release connectors
- Electromagnetic safety brake
- Wear-resistant steel rope guide

iCHAIN CHAIN HOIST

- Capacity up to 2 t
- FEM-duty up to M6 (3m)
- Hookway up to 10 m
- 2-step lifting speed
- Powerful and dynamic asynchronous motor
- Strong housing due to aluminum alloy

STANDARD GCC HOIST

- Hook travel up to 40 m
- Continuously variable trolley motion up to 32 m/min
- Either 2-step or continuously variable hoisting movement
- Capacity up to 80 t

STANDARD GCC CABLE FESTOON SYSTEM

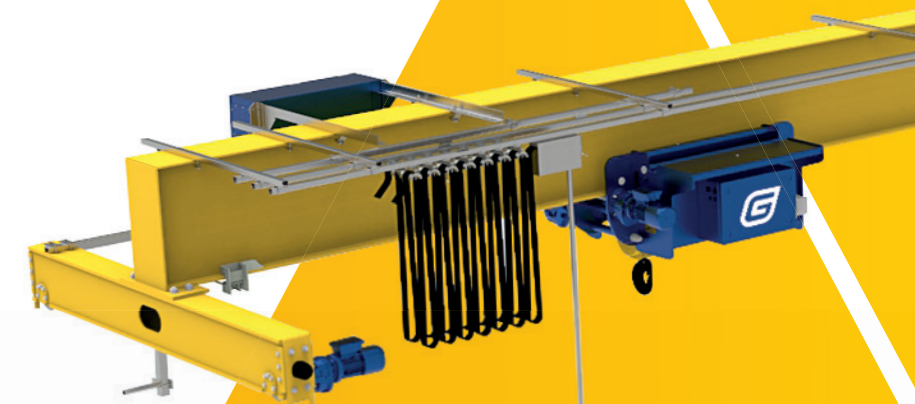

- Version with metal connectors
- Version with metal cable trolleys
- Rubber cables for outdoor operation

STANDARD GCC ENDTRUCK

- Continuously variable crane motion up to 63 m/min
- Complete with main girder connection plate, bolts and crane bumper

THE CRANE KIT IS AVAILABLE FOR THE FOLLOWING CRANE TYPES:

- Double girder overhead crane with a capacity up to 80 t
- Single girder overhead crane with a capacity up to 25 t
- Spans up to 30 m as standard (larger spans available upon request)
- Special crane kits available upon request
- Additional equipment available
- Main girder connection using high tension bolts

STANDARD GCC PENDANT CONTROL

- Version with metal connector
- Integrated strain relief rope
